

## **A roadmap towards integrity: A president's perspective twenty years on**

Julia Christensen Hughes, Yorkville University

**Session type: Sponsor's presentation**

### **Abstract**

In this session, I will share what prompted my original 2002-2003 study on student academic misconduct with Don McCabe, published in the *Canadian Journal of Higher Education* (2006), and my reflections on what has transpired in the ensuing 20 years. Highlighting key observations from my more recent contributions (in *Handbook of Academic Integrity* and *Academic Integrity in Canada: An Enduring and Essential Challenge*), I will present a roadmap towards integrity, with implications for senior university administrators (as well as faculty and students), committed to strengthening the integrity of the academy, in a period of escalating technological change.
