

**CANADA'S INTERNATIONAL
IMMUNIZATION PROGRAM**

**HELPING
CHILDREN
BEAT THE ODDS**

Canada is an important partner in the global effort to help children in the developing world beat the odds against six deadly, but preventable, diseases.

Today, 80 per cent of children under the age of one are protected against *measles, polio, tuberculosis, tetanus, whooping cough* and *diphtheria* – compared to only five per cent 20 years ago.

That translates into more than three million young lives saved each year. Despite these encouraging statistics, nearly two million children a year still die for lack of immunization. The odds can be beaten with your help.
