

### **Appendix D – Interview Guide**

These are questions for a semi-structured interview. They are intended to indicate the themes to be discussed at each interview. Given the nature of semi-structured interviews, follow-up ‘probe’ questions depend very much on the answers received to the initial questions, as well as on the results of the concurrent analysis of previous interviews. Therefore, it is expected that these questions will vary across interviews. This is standard procedure in many types of qualitative research.

### GMSP One-on-One Interview Phone Script

Hi \_\_\_\_\_,

Thank you for agreeing to participate in the GMSP evaluation. I want to remind you that your participation in this study is completely voluntary, and if you would like to stop the interview at any point in time you can freely do so. Additionally, you can decline to answer any of the questions. We will be audio-recording this information and transcribing it. Any information you provide will be kept confidential, and we will remove any identifying information from this interview. We are hoping that the data we collect will enable us to publish our results which, in the event of publication, will be made available to you.
