

Truth Stone

A humble child found a stone,
It was a truth stone.
The truth stone was eternal,
It could never be destroyed by a human being,
Nor could it be manipulated by humans.
The truth stone was pure.
In time, this child became a wise old person, holding knowledge gifted from the truth stone.
Despite living a long vibrant life, the old person could never learn everything held in the truth stone.
Many humans heard about the existence of the truth stone.
Some humans desired to control the truth stone, and steal its ancient knowledge.
Knowing that humans sought to steal the truth stone, the old person
Cast it deep into the ocean,
even the wise will cast knowledge aside out of fear.
Waiting in the deep blue ocean water the truth stone sits patiently until humanity is ready to listen to the
Truth.
