

## EDITORIAL

Usually a journal in a profession is devoted to research articles and major papers; too seldom do we find out what is really most important—and personal—to the writer. That is a great loss for there is a wealth of wisdom to be shared.

In this issue we have a number of people who are willing to share an important idea with us—a way of working, an attitude, a key book, an understanding of the problems we face.

We thank them.
